EDUCATION

Faculty of Engineering

2023 - Present

University of Santo Tomas

Science, Technology, Engineering, and Mathematics

2021 - 2023

Romblon State University

UNDERGRADUATE THESIS (ONGOING)

An Evaluation of Multi-Agent Reinforcement Learning for Dynamic Bus Scheduling Under Non-Ideal Conditions

- Conducting research on Multi-Agent Reinforcement Learning (MARL) for dynamic bus scheduling.
- Evaluating system performance under delays, disruptions, and varying demand conditions.
- Utilizing Python and reinforcement learning techniques for simulation and analysis.

CERTIFICATIONS

University of Santo Tomas

2025-2026

Cisco Networking Academy - CCNA: Introduction to Networks

Cisco Networking Academy - CCNA: Switching, Routing, and Wireless Essentials

ORGANIZATIONS & ACTIVITIES

UST Tiger TV

2024-2025

Audio Producer

UST Network of Electronics Engineering Students

2025 - Present

Member

PROJECT & INDUSTRY EXPERIENCE

Video Game Composer and Game Sound Designer - RoboGear Auto by DreamOut

- Philippine Game Development Awards Nominee – Best Sound Design
- Composed promotional and in-game music for the team's game, and collaborated with developers.
- Participated in Philippine Game Development Expo to promote the game

TECHNICAL SKILLS

Programming:

- Python
- C++
- Matlab
- Verilog

Engineering and Technical

- Sound Design & Audio Engineering
- Networking Fundamentals
- Basic Electronics & Circuit Analysis
- Audio Production
- Problem Solving

PYTHON PROJECTS FROM ECE ADVANCED PROGRAMMING COURSE

- Completed multiple Python programming projects from an Advanced Programming course.
- Spotify Data Analysis (2023) – Trends, correlations, and data visualization using Python.
- Portfolio: github.com/khalil-badal
